

Maycon Douglas. MD

PRODUCT DESIGNER

Portfolio www.maycondouglas.work
Linkedin www.linkedin.com/in/maycondouglascc
Email hi@maycondouglas.work

Product Designer focused on scalable interfaces and Design Systems, with experience at global brands like Danone and DLL. I bridge the gap between design and engineering, combining visual craft with technical knowledge (HTML/CSS/JS) to ensure implementation feasibility and smooth developer handoffs

WORK EXPERIENCE

dti digital | Sep 2024 - Current | Product Designer

- GSK Pro Mexico: Optimized the content creation pipeline by implementing AI agents, reducing the production time for pharmaceutical assets by 80%.
- GSK Pro Argentina: Collaborated with the platform redesign by implementing personalized user journeys for 5 distinct medical profiles, significantly improving content relevance and user experience.

VML (formerly Wunderman Thompson Technology) | Jan 2022 - Sep 2024 | Product Designer

- Danone North America: Collaborated on the corporate portal redesign, prioritizing visual consistency and technical scalability. The result was an easy to maintain site with optimized mobile performance and a 176% increase in organic traffic.
- DLL: Designed the interface for the AGCO App, an offline-first tool that empowered the sales force to run financial simulations in the field. This solution eliminated dependency on the back-office team and accelerated the negotiation cycle.

BASE Digital (Dec 2020 - Jan 2022) - Product Designer

- Duratex: Designed the interface for a B2B loyalty program, creating a gamified platform. The project drove high engagement rates and provided the client with a robust tool for sales intelligence and market segmentation.
- Oncoclínicas: Delivered a complex new portal in just 5 months, integrating digital health services (telemedicine and scheduling). The project consolidated the brand's digital presence and optimized the patient journey.

COURSES AND CERTIFICATES

Webflow Practitioner Certification - Webflow

- No-Code Development, HTML & CSS Visuals (Box Model, Flexbox, Grid), CMS, and Web Performance.

Design Circuit - Product Design

- Product Thinking, UX Research, Business Metrics (KPIs, ROI), and Discovery Processes.

Meiuca - Design system specialist

- System Architecture, Design Tokens, Technical Documentation, and Design Ops

Design Boost - Interaction design

- Advanced Prototyping (Figma), Micro-interactions, and Motion Design.
-

SKILLS AND TOOLS

- **Design:** Figma (Advanced), Design Systems, Prototyping, Adobe XD, Sketch, User Research.
- **Tech:** HTML5, CSS3, JavaScript, Git/GitHub, Webflow, Framer
- **Languages:** Portuguese (Native), English (Professional Proficiency).
